FEATURES/OPTIONS

DRIVER ASSISTANCE

	Option code	Edition	Sportive	LE Nav	Prices including taxes (€)	
					Cargo	Crew Van
Mechanical parking brake – Panel Van only. • Floor-mounted handbrake lever		●	●	●		
Electronic cruise control	K33	○	●	●	225	268
Cruise control with speed limiter and intelligent speed adaptation The cruise control feature enables you to maintain a constant speed – making it ideal for economical motorway driving. The speed limiter function can be set to ensure that you do not exceed the speed limit and can be easily overridden if required. Working in conjunction with speed sign recognition (included in optional Safety Pack), when a new speed limit is detected a message appears in the driver information display. You can then set the cruise control to the new speed limit with a simple press on a steering wheel button. – Diesel manual models. Only available in conjunction with Winter and Safety Pack.	K38	○	○	○	150	178
Parking sensors • Rear parking distance sensors • Audible warning	UD7	○	●	●	350	417
Parking Pack Intelligent ultrasonic sensors form part of the solution for today’s crowded roads and car parks. Delivering exceptional assistance both when parking and protecting you on the open road. – Only available in conjunction with Multimedia and Multimedia Navi Pro. Not available on Crew Van. • Front and rear parking distance sensors • Surround rear vision • Flank guard – Ultrasonic side sensors. • Electrically adjustable/heated/power-folding door mirrors • Front fog lights (standard on LE Nav)	OL4	○	○	○	995	1,187
Sight and Light Pack • High beam assist • Rain-sensitive windscreen wipers • 3.5-inch colour information display – Includes driver drowsiness indicator. • Automatic anti-dazzle rear-view mirror – Only available when glazed rear door option is specified. Head-up display – Panel Van only. • Navigation directions • Speedometer • Rev counter • Set speed of cruise control and speed limiter • Forward collision alert Only available in conjunction with optional audio units. Projects key information onto the windscreen so that the driver’s eyes remain on the road at all times. The display is adjustable for height and brightness.	UV6		O	O	375	–
IntelliGrip Pack For those drivers who regularly take their vehicle off road, this pack helps the driver cope with whatever conditions they encounter. IntelliGrip traction control is designed to increase grip in difficult conditions without the additional weight of a conventional four-wheel drive system. It’s an innovative grip control system that provides improved traction on certain terrain and conditions through a combination of optimised torque distribution and limited wheel spin, managed through the electronic stability programme. • IntelliGrip: A choice of five selectable modes to suit the driving conditions: ESP on, ESP off, snow, mud, sand	PS4	O			200	238
Construction Pack Improved protection and grip with engine sump guard/shield and Michelin Latitude Tour Mud and Snow tyres. • Underride protection • 215/65 R16 tyres • Increased chassis height (+30mm)	HMG	O			800	954

Safety Pack – Standard on automatic models.						
Front camera system A range of class-leading driver assistance and safety features are controlled by the front camera system.						
Lane keep assist with lane departure warning If the driver has not actively steered or signalled, the lane departure warning system provides gentle steering correction and warns when the vehicle moves outside of lane markings at speeds above 65km/h. <ul style="list-style-type: none">• Warning light in instrument cluster• Audible warning• Facia on/off switch						
Speed sign recognition Detects and then displays speed limits, reducing uncertainty and the risk of speeding.						
Driver drowsiness system The system monitors driving time and driving behaviour to help prevent accidents caused by tiredness.						
Forward collision alert The system operates automatically from 5km/h and gives an audible warning as well as a visual warning when approaching another vehicle too quickly.						
Automatic emergency braking with pedestrian detection The system works automatically in conjunction with forward collision alert, at speeds between 5km/h and 140km/h, and detects both vehicles and pedestrians. If no avoiding action is taken by the driver, at speeds below 30km/h the system automatically slows the vehicle to a full stop with emergency braking of 0.9g. At speeds above 30km/h it brakes automatically to reduce speed by a maximum of 50km/h – to reduce speed even further the driver must brake him/herself. The operational speed range of the system depends on the detected obstacle (mobile target: from 5 to 140km/h; fixed target: from 5 to 80km/h; pedestrian: from 5km/h to 60km/h). Opel driver assistance systems are intended to support the driver within the system-imminent limitations. The driver remains responsible for the driving task.
