The above is for information purposes only as our products are continually updated and changes may be made to the specifications at any time. If you require any specific feature, you must consult your authorised Opel Dealer who is regularly updated with any change in specification.

Specifications are subject to change without notice.

RRP does not include recommended delivery charge of €700. This price includes the recommended cost of PDI, number plates and delivery to an Opel Dealer. The recommended delivery charge does not include fuel supplied by the dealer, Motor insurance or any other goods or services supplied by agreement between the Dealer and the customer.

Prices effective 1 January 2018. Prices subject to alteration or change without notice or obligation.

* = **Minimum Mass** ('Mass in running order' on Certificate of Conformity and 'Mass in Service' on V5C form) is defined according to European Type Approval and include all fluids, tools, 90% fuel load and driver (75kg). It is minimum mass for this variant and does not consider local specification/trim or deletable options. Weights are also subject to manufacturing tolerances (EU Legislation allows 5% tolerance). **Payload** figures do not allow for the weight of the driver, or any passenger's, which should therefore be deducted from the figures shown.

= Fuel consumption information is official government environmental data, tested in accordance with the relevant EU directive. Official EU-regulated test data is provided for comparison purposes and actual performance will depend on driving style, road conditions and other non-technical factors.

Seatbelts:				
• Inertia-reel lap and diagonal seatbelts • Height-adjustable front seatbelts • Seatbelt pretensioner system – <i>Pretensioners tighten the seatbelt in the event of an accident limiting forward movement.</i> • Front seatbelt force limiters – <i>Reduces potential upper body injuries during a frontal impact.</i> • Seatbelt unfastened audible warning and warning light	●	●		
Body:				
• Laminated windscreen • Side-impact protection beams • Reinforced passenger safety cell • Fuel tank located ahead of rear axle	●	●		
Stability:				
Electronic Stability Programme–plus (ESP–plus) with traction control – <i>Works in conjunction with the vehicle's electronic braking and engine systems to keep the vehicle stable in many different situations. ESP monitors a variety of inputs to determine when the vehicle starts to lose traction, it can then immediately respond by varying the brake pressure between up to three wheels and adjust the engine output to help correct the loss of traction and improve stability.</i> Drag torque control – <i>Helps maintain stability when suddenly lifting off the accelerator.</i>	●	●		
Braking:				
Four-channel Anti-lock Braking System (ABS) – <i>Prevents the vehicle's wheels from locking up under heavy braking by momentarily reducing brake pressure at the appropriate wheel, ensuring that you can maintain control of the steering.</i> Emergency brake assist – <i>When emergency braking is detected the vehicle automatically applies the maximum possible braking assistance.</i> Electronic brakeforce distribution – <i>Automatically apportions the optimum braking force to each wheel.</i> Hill start assist – <i>Briefly maintains rear brake pressure to stop the vehicle rolling back on an incline.</i>	●	●		
Fire protection system:				
• Fire protection system • Fuel cut-off	●	●
