# ALL-NEW CORSA SC TRIM: ICE

## IN SUMMARY

More efficient, more advanced and more dynamic than ever before, the all-new Opel Corsa brings to market technologies and assistance systems that customers otherwise only know in higher vehicle classes. First in the line-up is the wonderfully well-equipped SC trim, with an SC Premium trim also on offer.

**SC: RRSP from €17,695\***

### Infotainment:

- Multimedia
  - 7-inch colour touchscreen
  - AM/FM/DAB digital radio
  - Bluetooth® audio streaming
  - Bluetooth® mobile phone portal
  - Apple CarPlay™/Android Auto™
  - USB audio connection
- Six speakers

### Interior convenience / styling:

- Air conditioning
- Flat-bottomed leather-covered steering wheel
- Cruise control with speed limiter
- Trip computer
- Speed-sensitive power-assisted steering
- Steering column adjustable for reach/rake
- Steering wheel audio/phone/cruise controls
- Driver's seat height adjuster
- 60/40 split-folding rear seat back

### Exterior convenience / styling:

- LED headlights / daytime running lights
- 16-inch silver 4-twin-spoke alloy wheels
- Remote control central locking
- Electrically operated front windows
- Electrically adjustable/heated door mirrors
- High beam assist
- Body-colour front and rear bumpers

### Safety / security features:

- Lane departure warning with lane assist
- Advanced traffic sign recognition
- Automatic emergency city braking
- Hill start assist
- ISOFIX child seat fixings on outer rear seats

**SC PREMIUM: RRSP from €18,595\***

### Features over SC trim:

- Heated front seats
- Heated steering wheel (excluding auto models)
- Rain-sensitive windscreen wipers
- Automatic headlight control
- Automatic anti-dazzle rear-view mirror
- Rear parking distance sensors
- Hill start assist with electric parking brake (automatic versions only)

# ALL-NEW CORSA-e SC TRIM: 100% ELECTRIC

## IN SUMMARY

The new Corsa-e offers state-of-the-art electric mobility. With subtle design touches and badging, and a range of 337km according to the latest, strictest WLTP protocol, the all-new Corsa-e in SC trim, benefits from a whole host of technology features to ensure even more driving comfort and enjoyment. Equipment gained over petrol and diesel SC models is highlighted below.

**CORSA-e SC: RRSP from €26,814\* \*\***

- 60/40 split-folding rear seat back

### Infotainment:

E & OE September 2020. \*Fuel consumption figures are determined according to the WLTP test cycle. The fuel consumption you achieve under real life driving conditions and CO2 produced will depend upon a number of factors, including the accessories fitted after registration, variations in driving styles, weather conditions and vehicle load. Only compare fuel consumption and CO2 with other vehicles tested using the same technical procedures. For more information contact your local Opel Dealer.

# CORSA-e: 100% ELECTRIC

## DRIVE TRAIN

The electric motor of the Corsa-e has the following properties:

	CORSA-e
Power kW/bhp	100/136
Torque peak Nm	260
Acceleration 0 - 50km/h (secs)	2.8
Acceleration 0 - 100km/h (secs)	8.1
Maximum speed km/hr	150
Transmission	All-electric single-speed drive unit

## BATTERY

The battery is integrated into the chassis of the Corsa-e and sits below the front and rear seat rows in order to ensure a maximum amount of boot space. The battery pack is protected by special crash guards and is housed in a secure and fireproof encasing that is additionally cooled. It has the following properties:

	CORSA-e
Battery energy kWh	50
Voltage range V	300 - 450
Battery pack construction	216 cells (125 Ah): 18 modules, 12 cells per module
Battery thermal management	Glycol water colling
Method of high-voltage service disconnect	E-service plug
Electric range combined ltrs / km (WLTP)*	329 - 337
Battery warranty	8 years / 160,000km / 70% capacity
<b>TIME TO CHARGE (hrs)</b>	
- AC charging (0-100 %): cable Mode 2	~17 - 30
- AC charging (0-100 %): cable Mode 3	~5,15 - 7,3
- DC charging (0-80 %): 100 kW	0.5

## EV CLUSTER DESIGN

The Corsa-e is filled with transparent and easy-to-understand vehicle data monitors that provide the driver with the best possible overview in order to easily achieve efficiency and ensure maximum range. The new Corsa-e incorporates a specific cluster that displays everything a driver of an electric vehicle needs for a holistic overview.

### ELECTRIC VEHICLE GAUGE

- The energy usage zone displays how much of the energy is currently being used up. The higher the value, the more energy is being used. The highlighted 'ECO' field gives drivers a visual guide and target to help maximize the efficiency and range.
- The charge zone indicates that the battery is being partially charged by the energy recovery system.
- speedometer
- The battery charge displays the overall charge of the battery.
- The onboard computer in addition to the regular information on speed, range and other data, displays EV-specific information for a better overview.

### REGENERATIVE SYSTEM

The regenerative system enables the passive recovery of energy when in motion. The energy created by the resistance of the brakes against the drivetrain is utilised through the regenerative system and converted into DC voltage to partially recharge the battery.

The flow display shows the driver how much of the battery has been used up and how and when it is being charged from the regenerative braking system.

Green: highlights the battery and the state of charge.

Blue: highlights the influence of the regenerative braking system

### CHARGE

The charge pages display an image of the charge port with the corresponding LED charge status indication lights. Besides displaying the charge status, the menu allows the driver to choose from the following:

**Immediate charging:** The standard setting immediately starts charging as soon as the **vehicle is docked for charging.**

**Delayed charging:** This is especially useful for when cheaper electric rates are desired, i.e. charging at night. This can be done by entering a charging starting time. The programme memorises the setting preventing the customer from having to enter it on a daily basis.

**Note:** After selecting the delayed charging mode, the push button of the charging flap needs to be pressed to confirm the choice. The charging options can also be controlled via the myOpel app.

### CHARGING FLAP

The charging flap also acts as a user interface and with its coloured LED lights signals the charging status.

**White:** welcome light that helps to light up the area, especially useful in dark conditions. **Flashing green:** charging in progress. **Solid green:** charging complete. **Solid blue:** delayed charging toggled; changes to flashing green when charging commences and solid green when charging is complete. **Solid red:** malfunction.

Additionally, the charging flap also includes the following: **Delayed charging activation:** a push button which is used to confirm the activation. **Padlock LED:** the padlock lights when the cable is correctly plugged in and locked.

# DIMENSIONS AND CAPACITIES

EXTERIOR DIMENSIONS mm	CORSA / CORSA-e
Vehicle length	4,060
Wheelbase	2,538
Overhang (front / rear)	831 / 691
Vehicle height	1,433
Tread width front	1,489
Tread width rear	1,488
Vehicle width (mirrors included)	1,960
Vehicle width (mirrors folded)	1,765
Maximum rear boot opening width	867
Maximum rear boot opening height	574
INTERIOR DIMENSIONS mm	CORSA / CORSA-e
Compartment length (1st / 2nd row)	885 / 1,697
Load floor width between wheel arches	1,018
Seat height (front / rear)	262
Shoulder room (front / rear)	1,360 / 1,324
Elbow room (front / rear)	1,382 / 1,344
Effective head room (front)	885
Effective head room (front with sunroof)	877
Effective head room (rear)	857
Effective head room (rear with sunroof)	857
LUGGAGE COMPARTMENT lts	CORSA / CORSA-e
Boot volume minimum	309
Boot volum maximum	1,118
