RRP does not include recommended delivery charge of €700. This price includes the recommended cost of PDI, number plates and delivery to an Opel Dealer. The recommended delivery charge does not include fuel supplied by the dealer, Motor insurance or any other goods or services supplied by agreement between the Dealer and the customer.

Prices effective 18.6.18. Prices subject to alteration or change without notice or obligation.

* - Please note, availability of non-Euro 6.2 models is limited, please contact your local Opel Dealer for details.

CROSSLAND X FEATURES/OPTIONS

SAFETY

Driver / passenger airbags

- Driver's and front passenger's airbags with active-vent technology – *Adapts the airbag pressure based on the position of the seat, reducing it the closer the seat is to the facia.*
 - Front seat side-impact airbags
 - Full-size curtain airbags for driver, front seat passenger and outer rear seat passengers
-

Seating

- Height-adjustable front seat head restraints
 - Height-adjustable outer rear seat head restraints
 - Anti-submarining ramps in front seats
-

Seatbelts

- Inertia-reel lap and diagonal seatbelts for all seats
 - Dual seatbelt pretensioners on front seats – *These keep the pelvis better coupled to the vehicle in an impact; the pelvis and therefore the legs are allowed less forward movement, reducing the risk of hard knee contact with the facia.*
 - Pretensioners on outer rear seatbelt retractors
 - Load limiters on front and outer rear seatbelt retractors
 - Smart seatbelt reminder for front and rear seats – *Warning lights and audible warning.*
-

Child safety

- Deactivation switch for front passenger's front and side-impact airbags – *Permits the safe use of a child seat in the front passenger seat.*
 - ISOFIX child seat mountings incorporating top tether anchor points located on outer rear seats (does not include child seat) – *Allows ISOFIX child safety seats to be securely fixed into the car. The ISOFIX mounting system reduces forward movement in an accident and makes the child seat easier to install.*
 - Child-proof locks on rear doors
-

Driver / passenger safety

- Energy-absorbing steering column
 - Side-impact protection beams
 - Reinforced passenger safety cell
 - Deformation zones front and rear
-

Pedestrian safety

- Collapsible windscreen wiper system – *Designed to reduce pedestrian head injuries.*
 - Upper and lower bumper design – *Reduces upper and lower leg injuries.*
-

Braking and stability

- Switchable Electronic Stability Programme (ESP)
 - Anti-lock Braking System (ABS)
 - Corner stability control
 - Traction control
 - Hill start assist
 - Engine drag torque control – *Improves directional stability by preventing the driven wheels from locking on slippery surfaces under the influence of engine braking.*
 - Hydraulic brake assist
 - Hydraulic brake boost
 - Electronic brakeforce distribution
-

Tyre pressure

- Deflation detection system
-

DRIVER ASSISTANCE			
Steering <ul style="list-style-type: none"> Speed-sensitive power-assisted steering 	●	●	
Cruise control with speed limiter and intelligent speed adaptation <p>The cruise control feature enables you to maintain a constant speed – making it ideal for economical motorway driving. The speed limiter function can be set to ensure that you do not exceed the speed limit and can be easily overridden if required. Working in conjunction with traffic sign recognition, when a new speed limit is detected a message appears in the driver information display. You can then set the cruise control to the new speed limit with a simple press on a steering wheel button.</p> <ul style="list-style-type: none"> Steering wheel mounted controls 	●	●	
Parking sensors <ul style="list-style-type: none"> Rear parking distance sensors • Audible warning Front and rear parking distance sensors • Audible warning 		●	
	○	○	250
 Easier parking			
Front camera system <p>A range of class-leading driver assistance and safety features are controlled by the front camera system.</p> <p>Lane departure warning: If the driver has not actively steered or signalled, the lane departure warning system warns when the car moves outside of lane markings at speeds above 60km/h.</p> <ul style="list-style-type: none"> Warning light in instrument cluster • Audible warning • Facia on/off switch  Keeps you in lane	●	●	
<p>Traffic sign recognition: Detects and then displays speed limits, reducing uncertainty and the risk of speeding.</p> <ul style="list-style-type: none"> Recognises different road signs, including temporary speed restrictions • Displays reminder in the instrument cluster  Always know the speed limit			
Safety Pack <p>Driver drowsiness system: The system monitors driving time and driving behaviour to help prevent accidents caused by tiredness.</p> <p>Forward collision alert: The system operates automatically from 5km/h and gives an audible warning as well as a visual warning when approaching another vehicle too quickly.</p> <p>Automatic emergency braking with pedestrian detection: The system works automatically in conjunction with forward collision alert, at speeds between 5km/h and 85km/h, and detects both vehicles and pedestrians. If no avoiding action is taken by the driver, at speeds below 30km/h the system automatically slows the vehicle to a full stop with emergency braking of 0.9g. At speeds from 30km/h to 85km/h it brakes automatically to reduce speed by a maximum of 22km/h – to reduce speed even further the driver must brake him/herself. The operational speed range of the system depends on the detected obstacle (mobile target: from 5km/h to 85km/h; fixed target: from 5km/h to 80km/h; pedestrian: from 5km/h to 59km/h). Opel driver assistance systems are intended to support the driver within the system-imminent limitations. The driver remains responsible for the driving task.</p>	○	○	500

CROSSLAND X FEATURES/OPTIONS

DRIVER ASSISTANCE

Park and Go Pack Plus (only available with Navi 5.0)

Intelligent ultrasonic sensors form part of the solution for today's crowded roads and car parks – delivering exceptional assistance both when parking and protecting you on the open road.

Advanced park assist:

Advanced park assist not only detects suitable parking spaces but also expertly steers into them for you. All you have to do is to drive forward or reverse and brake.

The system works with both parallel and bay parking.

- Front and rear parking distance sensors
- Ultrasonic side sensors identify suitable parking spaces at speeds up to 19km/h
- Fully automated steering • Detailed forward/reverse instructions are shown in the instrument cluster

Finds suitable parking spaces

Auto steers into the parking space for you

Side blind spot alert:

Side blind spot alert helps prevent potential collisions with other vehicles 'hidden' in the vehicle's side blind spots.

If a vehicle enters one of the blind spots a warning light illuminates in the relevant door mirror.

- Ultrasonic side sensors with three-metre range • Warning light in door mirrors
- Electrically foldable door mirrors • Operates at speeds between 11km/h and 138km/h (where permitted)

Warns of vehicles in your blind spot

Panoramic rear-view camera:

The rear-view camera gives a clear view of the area behind your car and helps place the car perfectly, without needing to strain your neck.

- The 180° panoramic view detects traffic coming from the side, helping you reverse out of perpendicular parking spaces more safely
- Overhead view allows you to see clearly how close you are to obstacles behind you
- Activated when reverse gear selected
- Camera view appears in infotainment screen
- Rear bumper and grid lines shown as reference points

See what's behind you on the central screen

CROSSLAND X SPECIFICATIONS

START/STOP TECHNOLOGY

Crossland X's Start/Stop system, fitted as standard to all models except 1.2 (81PS), offers real benefits by improving fuel economy and reducing CO₂ emissions, particularly in town. It does this by automatically stopping the engine when you come to a standstill, and then restarting as you prepare to move off.

Before automatically stopping the engine a number of system checks are carried out to ensure that it is both safe and practical to do so. To ensure safety, the driver must depress the clutch pedal, shift in to neutral, and then release the clutch pedal. System checks carried out before Auto Stop activates include:

- Start/Stop system is not manually deactivated via the facia button
- Sufficient brake vacuum is available to prevent the car rolling down an incline
- Battery is in good condition and charged
- Outside air temperature and engine temperature are above specified minima
- Electronic climate control (where fitted) is not in maximum heating or maximum cooling mode
- Self-cleaning function of the diesel particulate filter is not active

If all of these conditions are satisfied then the vehicle will Auto Stop.

When you are ready to pull away from standstill, Auto Restart is activated by depressing the clutch pedal.

Whilst at a standstill the vehicle is continually monitored. If necessary, the engine will automatically be restarted. Conditions that would initiate an Auto Restart include:

- Low battery level
- Brake vacuum below specified minimum
- Start/Stop system is manually deactivated
- Stationary for 5.5 minutes

FUEL TANK CAPACITY

- 45 litres (9.9 gallons)

ADBLUE TANK CAPACITY

- 17 litres (3.7 gallons)

TRANSMISSIONS

Five-speed manual gearbox:

Petrol engines: 1.2 (81PS)

Diesel engines: 1.6 (99PS) Turbo D ECOTEC models

Six-speed manual gearbox:

Diesel engines: 1.2 (110PS) Turbo / 1.5 (102PS) / 1.6 (120PS) Turbo D models

Six-speed automatic transmission with Active

Select function:

Available at extra cost on 1.2 (110PS) Turbo models.

Electronically controlled with adaptive driving function and fuel-saving eco mode. Fluid drive with torque converter, lock-up clutch and Active Select.

STEERING

- Speed-sensitive electric power-assisted steering
- Turning circle (wall-to-wall): 11.21m (36.7ft)

SUSPENSION

Front: Independent. Decoupled MacPherson struts with gas-pressure dampers and coil springs. Anti-roll bar.

Rear: Compound crank with coil springs and gas-pressure dampers.

WEIGHTS AND TOWING DATA kg

	Gross vehicle weight	Max. towing weights Trailer with brakes (without brakes)
1.2 (81PS)	1690	650 (560)
1.2 (110PS) Turbo Start/Stop	1770	840 (600)
1.2 (110PS) Turbo Start/Stop auto	1805	840 (600)
1.5 (102PS) Turbo D Start/Stop	1820	840 (620)
1.6 (99PS) Turbo D Start/Stop ECOTEC	1820	840 (620)
1.6 (120PS) Turbo D Start/Stop	1840	870 (640)

Gross vehicle weight is the total permissible weight of the vehicle including passengers and their luggage. The maximum roof rack loading should not exceed 60kg. The maximum towing weights are based on the ability of the car, with two occupants of 75kg each, to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. At altitudes above 1500 metres, the engine output may drop with a corresponding reduction in towing capability. Any extra weight, such as luggage or additional passengers, should be deducted from the maximum towing weight. With a trailer fully loaded, maximum noseweight should not exceed 50kg. Always fit Opel towing attachments and accessories available from your Opel Dealer. They are designed specifically for Opel models and carry a 12-month guarantee.

BRAKING AND STABILITY

- Switchable Electronic Stability Programme (ESP)
- Anti-lock Braking System (ABS)
- Corner stability control
- Traction control
- Hill start assist
- Engine drag torque control
- Hydraulic brake assist
- Hydraulic brake boost
- Electronic brakeforce distribution

1.2 (81PS) / 1.6 (99PS) Turbo D ECOTEC models

Front ventilated discs: 266mm diameter

Rear discs: 249mm diameter

1.2 (110PS) Turbo 1.6 (120PS)

Turbo D models

Front ventilated discs: 283mm diameter

Rear discs: 249mm diameter

BODY

- Aerodynamic drag co-efficient: Cd 0.31
